UNIVERSITY OF NORTH TEXAS

G. BRINT RYAN COLLEGE OF BUSINESS

ARTIFICAL INTELLIEGENCE (AI) IN BUSINESS CERTIFICATE

The Graduate Academic Certificate in Artificial Intelligence in Business at the University of North Texas equips professionals and graduate students with specialized expertise in applying AI to organizational challenges. The program emphasizes responsible AI design, governance, and risk management, while building practical skills in business case development, design thinking, and solution prototyping. Participants gain a strong foundation in AI technologies and applications, together with insight into their ethical, social, and strategic impacts. Graduates are prepared to help organizations harness AI for innovation, competitive advantage, and sustainable growth.

ADMISSION INFORMATION

- Apply HERE with the UNT GradCAS (Centralized Application System)

- International students must also review the International Admissions page for additional required documents.

- **Transcripts:** Request transcripts from all colleges and universities attended through UNT GradCAS. For transcript questions, please contact RCoBMasters@unt.edu

UNT GRADUATE STUDENTS SEEKING CONCURRENT ENROLLMENT

Students MUST be admitted to an academic certificate program in order for the certificate to be awarded.

If you are a current UNT student and you are applying for a GAC please email RCoBMasters@unt.edu to submit your request to add a GAC to your degree plan.

If you do not complete the application prior to your graduating semester, the Toulouse Graduate School will not accept your request for the certificate.

READY TO APPLY? NEED TO GET ADVISED?
