

ACE CAMP

AVIATION CAREER EDUCATION ACADEMY

Sponsored by the FAA, the University of North Texas, Texas Woman's University, and hosted by Tarrant County College (TCC), ACE CAMP allows incoming junior and senior high school students to explore careers in aviation and aerospace.

Students learn how an airplane flies and how a jet engine works, receive an introductory flight, get behind the controls, and fly an aircraft. ACE CAMP will enable students to make informed decisions as they consider college and career options.

During ACE CAMP, students learn:

- The importance and diversity of aviation and aerospace careers
- How the aviation and aerospace industries have developed
- About future career opportunities and developments

ACE CAMP IS A ONE-WEEK CAREER EXPLORATION CAMP FOR INCOMING JUNIOR AND SENIOR HIGH SCHOOL STUDENTS INTERESTED IN AVIATION OR AEROSPACE

- Fly an airplane
- Learn air navigation
- Visit an air traffic control facility
- Learn about aviation careers
- Build a drone
- Ride in a helicopter
- Tour local aviation companies
- Discover aviation maintenance
- Preflight an airplane
- Learn how airplanes fly
- Understand flight planning
- Spend time on a college campus

JUNE 7-11, 2027
