Internship Experiences/Career Center

The G. Brint Ryan College of Business allows for internships within their various degree plans. Internships are work experiences (typically one semester) related to your field of study with an emphasis on “on-the-job” training rather than merely employment. To receive more information on how internships may apply within your degree plan, please speak with your advisor and the Career Center.

While not all programs require internships for credit, all students are urged to participate in at least one internship prior to graduation. We encourage you to work with the Career Center from the start of your time at UNT to put you on a track for career success. Business career experts are located within the Business Leadership Building (<https://cob.unt.edu/careercenter>).
