MISSION STATEMENT

“To be an organization that is committed to providing service at a level of excellence that exceeds every industry standard, at a price that is fair. We will accomplish this by creating an environment that encourages and rewards our employees for reaching their full potential, and emphasizes both competition and equality.”

Mr. Biagio Bruni,
Founder & Chairman
Commitment to the Mission Statement is a fundamental reason for JAS’ exponential growth through the last 40 years.

JAS’ growth is attributed to consistently providing our customers exceptional service and competitive pricing.

Exceptional service comes from the systems and processes JAS has put in place everywhere it operates.
MISSION

There are numerous examples of people having worked through the ranks at JAS due to ability, hard work and the company’s belief in its people.

A prime example is Mr. Marco Rebuffi. Having started in the Milan branch 30+ years ago as a clerk, he is now the Worldwide President & CEO reporting directly to the Founder & Chairman, Mr. Biagio Bruni.
Our objective is to create lasting value to our clients and shareholders by repeatedly and transparently delivering the client’s products safely and on time.

We do so in an atmosphere of integrity and honesty that still allows our company to prosper in the long-term.
OUR SUCCESS

01

Our rapid growth and success has been possible through the use and development of highly skilled people and leading-edge technology.

02

JAS puts a real emphasis on customer service that enables customer acquisition and retention.

03

Continued aggressive growth through a combination of organic growth and strategic acquisitions in the key markets and in key products & services. By continually reinvesting in the business, we have maintained a strong and solid financial position.
GLOBAL ORGANIZATION
Biagio Bruni founds JAS in Milan, Italy

1978

Named Italy’s #1 IATA ranked freight forwarder

1981

Service portfolio expanded to include ocean freight

1985

Logistics facilities in key gateway hubs developed to enhance JAS’ operations

2006

Worldwide Management moves to Atlanta, GA (USA)

During the first 10 years, JAS focused on Europe & the Far East, resulting in dominant market share from Italy to Japan

Continue expansion in Europe and Far East Asia. New openings in Brazil, Argentina, Chile

JAS expands its worldwide footprint, opening subsidiaries in India, Middle East, Northern Europe & beyond
2011
Completion of new Global Campus in Atlanta, GA (USA)

2013
JAS launches the Global One Initiative

2017
JAS completes the worldwide rollout of the Global One Environment

2018
JAS celebrates its 40th anniversary

2020
JAS introduces Blue World Flight Operations

2021
Sonave, Tigers, Bossi, and Greencarrier Freight Services added to the JAS family
Office Locations:
228 JAS
46 GCFS

82 Agent locations in 61 Countries

6,000+ Employees Globally

2021 Worldwide Consolidated Revenue: USD $4 Billion

Positioned in 47 Countries*

- Handling of valuable goods, live animals & special commodities
Our team is an experienced, client-centric group with a focus on providing sustainable, effective solutions to a wide range of regulatory compliance topics designed to minimize our client’s exposure to risk. Our team is dedicated to the premise that a client adept at managing regulatory outcomes can effectively manage their profit & losses related to regulatory compliance.

This is because a client with a strong control of their regulatory compliance processes can effectively minimize the variable risk associated with non-compliance, thereby driving savings into the operating expenses of conducting business, and ultimately strengthening the bottom line!
• Consolidations moving in all major trade lanes

• Consol or back-to-back

• Project moves, temperature controlled, next flight out

• One Global System

• Flexible routings available for deferred, lower cost programs
As market volatility continues to impact air freight capacity and costs in 2021, JAS continues to secure weekly space to meet your air cargo needs.

JAS offers routine flight operations on key trade-lanes. These are designed provide guaranteed capacity, control, and predictable lead times. Each flight offers a hub solution so transfers can be arranged to and from multiple origin and destination points.

JAS offers scheduled services on the following routes:
• Blue World Atlantic: Chicago to/from Frankfurt
• Blue World Pacific: Shanghai to Chicago • Hong Kong to Los Angeles
• Blue World Orient: Shanghai to Frankfurt

WHAT ARE JAS SERVICE STANDARDS?

HOW IS JAS ADDING VALUE WITH SERVICE STANDARDS?
JAS commits to the accurate and timely delivery of the noted milestones to all of its customers.

JAS will deliver this information to all of its customers using 3 different options/tools.
JAS STANDARD

Email Notification
• C1 Organization can be configured to automatically notify Customers when new shipment is created
• Real time tracking of shipments through email notification hyperlink
• Customer can then click on hyperlink to see completed milestones in real time

JAS Track
• Advanced Shipment tracking (through individual logins)
• Reports can be pulled by the client
• Visibility of shipment documents (HBL/INV & PKL)

Shipment Status Report
• A standard client report can be configured and auto-scheduled through C1
• Auto-scheduling can occur at client preference
JAS STANDARD plus!

Includes all Standard level services plus...

01 Column Customization
- Select columns available from the shipment status report as needed
- Customize the report columns and its order with a single click
- Auto-scheduling can occur at client preference

02 Document Visibility
- View house bills, commercial invoices, and packing lists
- Download shipment documents online
- Available in real time by JAS, as received by supplier
- View JAS billing invoices
JAS ADVANCED

Includes all Standard+ level services plus...

01 Transit Time KPI
- View shipment transit times in real time
- Door-to-door / door-to-port / port-to-door

02 Spend Report
- View shipments spend in real time
- Spend break-down in to the following categories:
  Origin / Freight / BAF / Security / Destination / Tax & Duty

03 Emission Data Report
- View CO² emissions for each shipment
One System
- One single database for all JAS transactions globally
- One single platform for both our clients and our operation
- JAS is one of the few forwarders that has achieved a One System approach

One Global File
- Shipment updates are done both at origin and destination on the same file
- Real-Time visibility by all parties
- Same process deployed everywhere in the world

One Global Team
- JAS invests in a global team focused solely on continuously monitoring and auditing the accuracy of data, as well as compliance to the JAS Global Standard process
- People will always make the difference at JAS
JAS DIFFERENCE

JAS offers 98% Milestone Global Compliance

Which means people, systems, and processes working for you around the globe 24/7
THE RESULT

- Increased Accuracy
- Increased Efficiency
- Increased Realtime Visibility
- Improved Data Quality
NEED MORE?

JAS CAN DEVELOP A CUSTOM SOLUTION FOR YOU!
ACCOUNT MANAGEMENT MODEL

EXECUTIVE
- Ultimate accountability for quality, customer satisfaction and support

PRODUCT TEAMS
- (Air/Ocean/Compliance/IT)
- Facilitate carrier relationships
- Ensure proper supply chain visibility and reporting

REGIONAL SUPPORT
- Product, operational and commercial responsibilities
- Champion continuous improvement

ACCOUNT MANAGEMENT TEAM
- Coordinate communication between JAS and your company
- Generate proposals, foster relationships, lead pursuits of further growth
JAS will deploy a custom implementation schedule for your account to ensure the best possible account management for you, your suppliers, and customers.

Our goal is to efficiently transition major new business to quickly achieve optimal satisfaction and productivity levels through developing standards for:

Account Training | Measurement | Superior service | Proper follow-up

“Openness, honesty, reliability, and character will define our relationships.”
• Establish a core transition team with defined resources, goals & objectives and defined timelines

• Create a core team including key representatives from your organization who will:
  o Provide JAS with key insights into existing processes
  o Allow a seamless transition

• Meet regularly with your key employees who are most familiar with your processes

• Conduct ongoing reviews of processes and continuously seek opportunities for improvement
ACCOUNT IMPLEMENTATION & MANAGEMENT

01. Have minimal impact on personnel resources and business activities

02. Fully document existing procedures

03. Identify essential information needed to implement the transition

04. Adopt key milestone dates
Standard Operating Procedures (SOP)
INTEGRATED ACCOUNT TEAM DESCRIPTION

• Define the requirements of the organization, produce a detailed operational procedure to be inserted into an operational manual.

• Perform customized procedures and formats for managerial and operational level and forecasting reports.

• Coordinate and implement of all operational procedures related to documents:
  o Processing
  o Distribution
  o Invoicing

• Direct communication with JAS all over the world concerning materials directed to ACCOUNT NAME
  o Ocean & air documents
  o Administration
  o Systems interface communication with foreign dispatch center
INTEGRATED ACCOUNT TEAM DESCRIPTION

• Review POs for requirements for import/export license of countries involved in the procurement process.

• Check purchase order against vendor’s invoice to verify amounts, quantities, amendments, missing parts, and settle discrepancies.

• Receipt of material electronically from the consolidation points.

• Prepare pro-forma invoices and other required paperwork.

• Revise of invoices against PO material and packing list receipt.

• Set up sailing arrange space bookings, including charters where needed.

• Prepare weekly material and shipping status reports, including vessel name/airline, amount shipped, Bill of Lading, country involved, and other details.
The assigned personnel have an average of 10 years experience in transportation and related fields.

Provide direct control of materials to ensure strict compliance with all domestic and international regulation.

Active involvement with domestic carriers to minimize transit times from supplier to port of export.

Effective control to best route shipment and determine mode and routing of shipment to minimize freight costs.

Experience in moving heavy cargo and over dimensional cargo.

Capture and maintenance of statistical information to improve future freight negotiations and tonnage expectations.
The SOP for ACCOUNT NAME will be the direct responsibility of the account management team and is a work in progress from day one until the process is refined & perfected over a period of time.

JAS will expand upon the Standard Operating Procedures (SOP) we have in place for ACCOUNT NAME, detailing all aspects of the freight movements & associated tasks from the point of material receipt through to delivery to the end user.

The use of an SOP is standard throughout JAS for accounts. JAS believes it is essential to have a document that can be readily referenced by any JAS or third party personnel concerned with an account to ensure that the traffic is handled correctly according to ACCOUNT NAME’s requirements.

The SOP for ACCOUNT NAME will be the direct responsibility of the account management team and is a work in progress from day one until the process is refined & perfected over a period of time.
ESCALATION PROCEDURES

JAS Worldwide will work together with ACCOUNT NAME to establish and identify Key Performance Indicators (KPIs) according to ACCOUNT NAME’s requirements.

Depending on how ACCOUNT NAME wants this data received (weekly, monthly, quarterly, etc.) the various offices involved will:

• Monitor and produce reports based on the requirements/criteria established

• Benchmarks will be continually monitored and updated as needed.

JAS Worldwide considers this a key process in our ongoing efforts to improve our mutual objectives, provide excellent service and most importantly, to ensure ACCOUNT NAME’s satisfaction.
Data collection helps JAS Worldwide monitor the degree of customer satisfaction, conformity to process requirements, service and suppliers. Input derived from these items allow JAS to gather all information needed to recognize the necessary actions to modify non-conformities and promote continuous improvement.

JAS will ensure suitable methods for monitoring:

- These methods demonstrate the ability of the processes to achieve planned results.
- When these results are not achieved, corrective action shall be taken and clearly outlined within the SOP of action to be taken.

JAS Worldwide will institute processes for regular internal auditing:

- The Internal Audit will conform to the requirements established in the processes.
ESCALATION PROCEDURES: IDENTIFYING & CONFORMING PROCESS REQUIREMENTS

01
Corrective action is taken to eliminate the cause of a detected non-conformity.

02
JAS will ensure that reports from our customers of a non-conforming service are dealt with promptly and effectively to the satisfaction of ACCOUNT NAME and JAS.

03
JAS will investigate the cause of the non-conformity, correct the non-conformity, and follow up to ensure that the corrective action taken is effective.

04
Records will be kept of the actions taken and the results, which will be reviewed with management.

JAS Worldwide shall ensure that services that do not conform to the process requirements are identified and controlled.
Measurements to building the escalation process are as follows, but not limited to:

A. JAS Requirements: JAS’ Corporate standards that ACCOUNT NAME can expect JAS to achieve:

1. Order response time
   a. Export/import
      i. Documents processed same day as received
      ii. Customs entry submitted five days prior to shipment arrival (if possible).

2. Shipment delivery time:
   a. Tracked against customer’s request (if provided).
Measurements to building the escalation process are as follows, but not limited to:

A. JAS Requirements: JAS’ Corporate standards that ACCOUNT NAME can expect JAS to achieve (continued):

3. Event specific deadlines
   a. Export/import
      i. Paperwork sent to destination within 4 days of vessel departure/1 day prior to aircraft departure.
      ii. Response on status with Customs within 24 hours of submission of entry to local Customs office.
Measurements to building the escalation process are as follows, but not limited to:

B. ACCOUNT NAME’s Requirements: Description of detailed & expected standards, devised jointly to which both parties commit themselves to achieve:

1. Customized reports to assist with ACCOUNT NAME’s decision making
   a. Historical
   b. Exception reports
   c. Comparison reports

2. Framework for dealing with comments/complaints from ACCOUNT NAME’s ultimate customer
   a. How do we quantify this reaction?
   b. How is JAS able to respond?
   c. What is communications protocol for this instance?
CUSTOMER EXPECTATIONS & SUPPORT

We ask for:

- Open and honest communication.
- Access to key personnel within ACCOUNT NAME for implementation and on-going support.
- Volume forecasting at the onset of business and throughout our business partnership.
- Continuous feedback/evaluation of our services.
- Keeping an open mind to new ideas, approaches and possible change.
- Internal & external cost management processes.
- Being open to training of new regulations/government mandates.
- Continuous efforts of improvement.

Our success is contingent upon assistance from our customers.
Strategic Partnerships vs. Transactional Partnerships

JAS believes the real value in delivering supply chain services occurs when companies come together to form strong partnerships that invest heavily in human resources, time, and strategic alliances.

It has been JAS’ experience that these partnerships tend to not only maximize the resources in terms of real dollars saved, but also in intangible items, such as greater innovation, flexibility, consistency, efficient problem resolution, and greater customer satisfaction (internal and external).
ONGOING SUPPORT
Regular Meetings (or as needed) with you and JAS’ Senior Management

• Develop further opportunities
• Address and correct outstanding issues
• Discuss market challenges
• Exchange ideas
• Develop and execute corrective action plans

This results in...

• Coordinated strategies
• Shared resources
• A more integrated approach (synergies among the groups)
• Pooled negotiating power (leverage gain)
Agendas for our quarterly conference calls will be tailored accordingly, but based on these premises:

- Market updates
- Compliance
- ACCOUNT NAME surveys
- Land/shipment review
- Global account management expectations
- Regional points of interest
- Improvement areas
- Escalation paths
THE DIFFERENCE
WHAT MAKES JAS DIFFERENT?

01. Operate our own offices in all major trade lanes.

02. Provide a structured global account management program engaging market experts – regional & global executives.

03. Take a proactive vs. reactive approach in all aspects of our business (commercial development, operations, product management, implementation & transition of business, compliance and I.T.)

04. Flexibility allows us to react quickly due to a flat management structure.

05. Reduce logistics costs by leveraging all modes into a bundled solution.

JAS offers the same global footprint as our major competitors but we offer so much more.
JAS Worldwide is a full service forwarder that enters into, manages, and maintains a collaborative “CAN DO” approach with its clients.

• Experience, expertise and specialization means your account will receive “best fit/best price” solutions.

• JAS is 100% committed to making the relationship with you mutually successful.

• JAS management and operating systems are world class quality and are easily transitioned into your account.
Simplicity – implying it is basic – is one of the key factors in our proposal and service. The uncomplicated nature and straight-forward application of international forwarding practices and principles should be well demonstrated within our presentation.

Finally: We want your business and will work hard to win it and will work tirelessly to maintain your confidence in our appointment!
THANK YOU FOR YOUR ATTENTION
