The Department of Marketing, Logistics and Operations Management continues a long-term commitment to excellence in graduate education. The departmental faculty recruited from nationally and internationally recognized universities, represents a wide range of teaching and research expertise. Graduates of the program pursue careers in a broad spectrum of industries. An MBA with a concentration in Supply Chain Analytics supports growth and development from two perspectives. One, if you have an established career path, the program provides you the opportunity to gain the broader, more general perspective necessary for promotion to leading managerial positions. Two, if you are preparing for the business world, the combination of an undergraduate degree with an MBA concentration in Supply Chain Analytics provides an excellent foundation for additional career opportunities.

CAREER POSSIBILITIES
Distribution Manager | Fleet Operations Manager | Industrial Engineers | Inventory Management | Loss Prevention Manager | Operations Research Analyst | Production and Expediting Manager | Purchasing Manager | Shipping, Receiving, and Track Manager | Store and Distribution Manager | Transportation Manager | Warehouse Manager
